CONSTRUCTION SITE SECURITY

INDUSTRY CHALLENGES

We understand that job sites in the initial phases of construction are especially vulnerable to the theft of expensive machinery and materials, vandalism, trespassing, loitering, internal theft, fraudulent workers' comp claims, and other unwanted activity; contractors can face increased insurance premiums and liability claims as a result of such risks.

If you are looking to reduce theft, vandalism, fraudulent claims, and safety issues at your construction site, call **Guardian Integrated Security**.

CONTACT US today for a free consultation with an experienced Account Manager.
